

Case Study:

PI Law: Google + Meta

Generating 50+ Cases For Arizona PI Law Firm in 4 Months

By: Samuel Rainey

Challenge

Big Chad Law was seeing a concerning downward trend in Q1 2025 in the overall number of cases from a variety of sources, including Google. The issue wasn't the lead volume, their staff was plenty busy on the phone, but it seemed less and less leads were turning into cases, with more and more being marked as spam every day

Solution

Meta Ads focused on drive high levels of awareness about their brand

Google Ads to capture both demand generated by Meta, and high-intent searches

Local service ads to provide guaranteed lead quality, and get in front of clients at every available chance

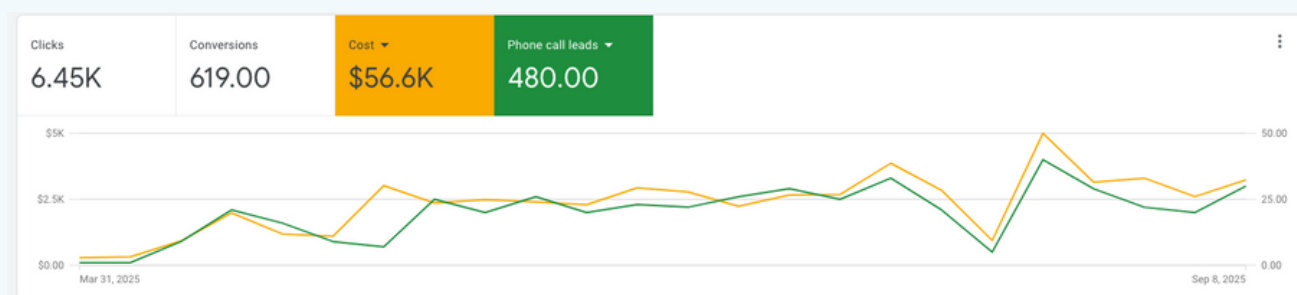

PI Law: Google + Meta

Summary

We implemented advanced conversion tracking to not only measure calls and form fills but also identify which leads became qualified cases. This allowed us to optimize campaigns toward high-quality signals instead of just raw leads. After discovering calls were the strongest driver of new cases, we refined tracking to focus on calls over 3 minutes, sending even stronger data back into Google Ads.

Google became the main driver of profitable cases while Meta was used for top-of-funnel awareness, delivering thousands of clicks and hundreds of thousands of impressions for only a few thousand dollars a month. With improved tracking and performance, Big Chad Law was able to expand and open a sixth office in Arizona.

Results: April 2025 - September 2025

Month	Cases	Ad Spend	CPA
APR 2025-->	15	\$12,881.48	\$858.77
